RAMJEE PRASAD

Backend Developer | Java & Spring Boot

Email: ashish23481@gmail.com
Phone: +91 8227865178
Location: Jamshedpur, India
GitHub: github.com/ubinox-pi
LinkedIn: linkedin.com/in/ramjeeprasad

TECHNICAL SKILLS

Languages: Java (25), C++
Frameworks: Spring Boot 4.x, Spring AI 2.0, Spring WebFlux, Spring Security, Spring Cloud Gateway, Spring Data JPA, Hibernate
API & Protocols: RESTful APIs, GraphQL, WebSocket, STOMP, WebRTC, Server-Sent Events (SSE)
Databases & Caching: PostgreSQL (pgvector), MySQL, MongoDB, Redis
Messaging: Apache Kafka, RabbitMQ
DevOps & Tools: Docker, Docker Compose, Kubernetes (Fabric8), Git, Jenkins, Maven, Gradle, Postman
Storage & Cloud: MinIO (S3), AWS (EC2, S3), Google Cloud (GCP), Firebase (Storage, Notifications)
Testing: JUnit 5, Mockito
Operating Systems: Linux (Ubuntu, Red Hat), Windows
Soft Skills: Communication, Problem-Solving, Self-Learning, Adaptability, Time Management, Collaboration

PROJECTS

Neptune Bank — Microservices Banking System [GitHub] — Java 21, Spring Boot 3.5, Spring Cloud Gateway, Docker Compose

- Architected a full-scale modular banking system with 10+ independently deployable microservices including auth, user, account, transaction, card, loan, OTP, and employee services
- Built a reactive API Gateway using Spring WebFlux and Spring Cloud Gateway for non-blocking request routing and resilience
- Secured all microservices using Spring Security with JWT-based authentication and role-based access control (RBAC)
- Designed database layer using Spring Data JPA with PostgreSQL, handling transactional operations across service boundaries
- Orchestrated multi-service development and deployment using Docker Compose; deployed frontend on Vercel
- Integrated WhatsApp automation module for real-time notification delivery to end users

Convo — Real-Time Chat & Communication Backend [GitHub] — Spring Boot, WebSocket, STOMP, WebRTC, Firebase

- Built a real-time chat and user presence backend using Spring Boot with WebSocket and STOMP protocol for persistent bidirectional communication
- Implemented WebRTC signaling server for peer-to-peer audio and video calling with low-latency media streaming
- Integrated Firebase for cloud storage of media files and push notifications for offline message delivery
- Engineered client disconnection detection and configurable heartbeat mechanisms to maintain reliable connection state
- Designed hybrid media transfer pattern supporting HTTP multipart uploads and STOMP messaging for real-time text

Lovable Clone — AI Full-Stack App Builder & Live Sandbox [GitHub] — Java 25, Spring Boot 4.1, Spring AI 2.0, Kubernetes, MinIO

- Built a distributed AI web development platform for creating full-stack via natural language using Spring AI streaming with SSE
- Built Kubernetes sandbox orchestration with pre-warmed runners, dynamic pod claiming, and bidirectional MinIO sidecar sync for instant previews
- Built a Node.js wildcard reverse proxy with Redis-backed route resolution and WebSocket passthrough for Vite HMR
- Implemented multi-tenant RBAC with Spring Security, Redis sessions, and project permissions (OWNER, EDITOR, VIEWER)
- Integrated Razorpay subscriptions with webhook lifecycle management, daily token quotas, and plan-based project limits

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science — **2023 – 2027 (Expected)**
Silicon Institute of Technology, Sambalpur — CGPA: 7.46 / 10.0
Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Higher Secondary (XII) — Jamshedpur Co-operative College (JAC Board) — **2021 – 2023**

Secondary (X) — Gayatri Shiksha Niketan High School (CBSE) — **2021**

CERTIFICATIONS

- **Spring WebFlux Masterclass: High-Performance Reactive APIs** [View Certificate] — Udemy (Vinoth Selvaraj) — May 2026
- **Mastering Java Reactive Programming [From Scratch]** [View Certificate] — Udemy (Vinoth Selvaraj) — Jan 2026
- **Programming In Java** [View Certificate] — NPTEL (Elite Certification) — 2025
- **Database Management System** [View Certificate] — NPTEL (Elite Certification) — 2025
- **Computer Networks and Internet Protocol** [View Certificate] — NPTEL (Elite Certification) — 2025
- **Spring Framework & Spring Boot** — Self-paced (YouTube, Official Documentation) — 2024
- **Docker & Containerization** — Self-paced (YouTube, Docker Documentation) — 2025
